

C222

Tyre Changer with PL1600 Assist Arm

All tyre machines supplied by Concept Garage Equipment have been designed and manufactured with durability, affordability and safety in mind.

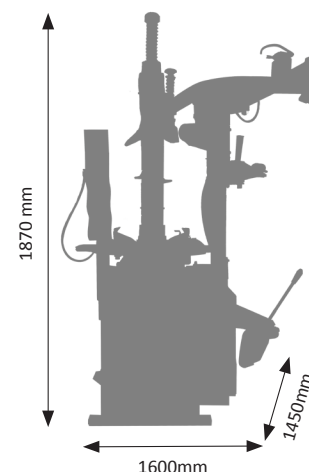

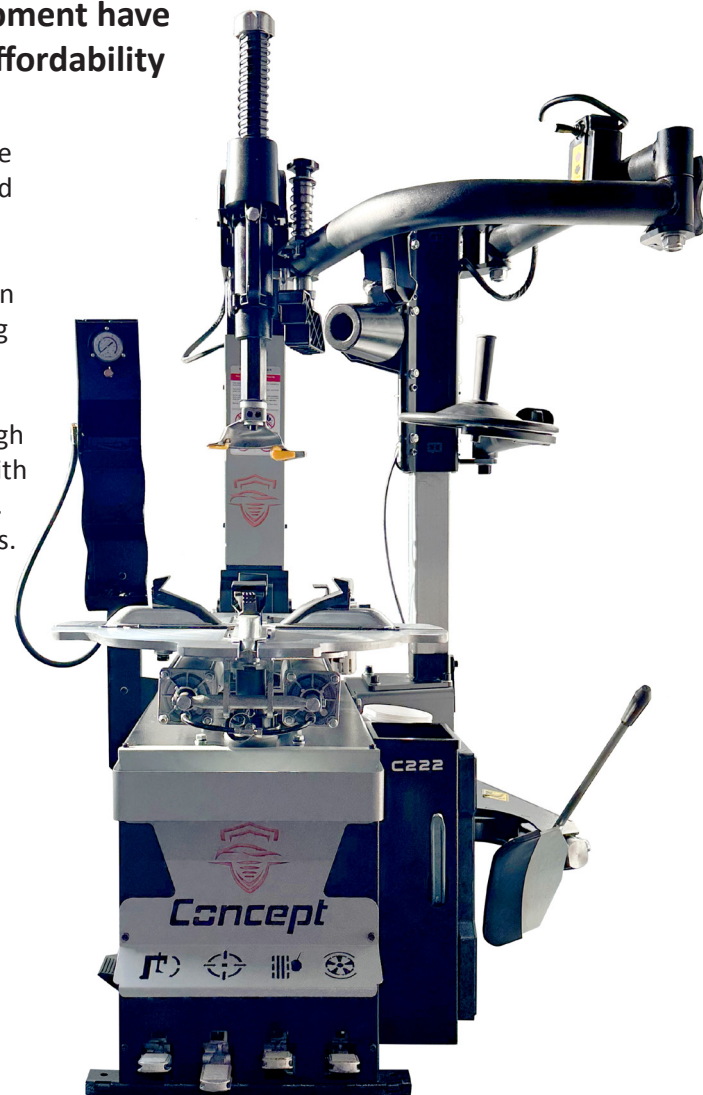

Our C222 tyre machine plus PL1600 assist arm is our entry level tyre machine but is by no means cheap and cheerful. Our C222 is packed full of features such as a 3-point assist arm, inflation station and tool tray as standard. This machine comes with a 24" turntable and is adaptable for motorcycles too with an optional motorcycle adaption kit. The C222 tyre machine has been built for busy tyre shops taking into consideration heavy use. To back that statement up we have even added a two-year parts and labour warranty giving you the confidence that you are purchasing a reliable tyre machine. Although this is classed as our entry level machine our entire range comes with additional features and benefits that put us above the competition. All our tyre changers have been tested and certified to CE standards.
