

C42M

Two Post Lift

All vehicle lifts supplied by Concept Garage Equipment have been designed and manufactured with durability, affordability, and safety in mind.

Our C42M is our entry level lift but by no means a cheap and cheerful lift. This lift comes with our manual locking system, anti-toe traps and height limit switch safety system. This lift has been designed and built for a busy garage taking into consideration lifting and lowering all day. To back that statement up we have even added a two-year

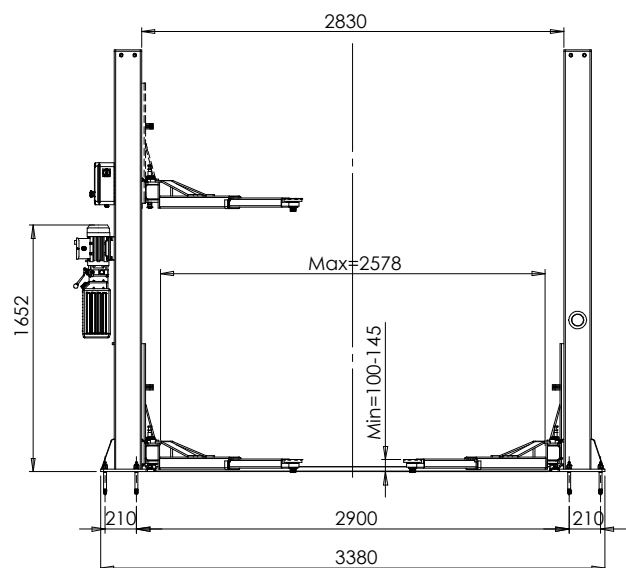

parts and labour warranty giving you the confidence that you are purchasing a reliable lift. Although this is classed as our entry level lift our entire range comes with additional features and benefits that put us above the competition. All our lifts have been tested and certified to CE standards.
